

Eco-Counter Visitor Use 2020

This report documents visitor use data for ten Marin County open space roads and trails for a one year period from November 2019 to November 2020. It is the third year of a three-year pilot program.

- Blue Ridge Fire Road, Cascade Canyon Preserve
- Boulder Springs Trail, Gary Giacomini Preserve
- Fairway Trail, Camino Alto Preserve
- Haute Lagunitas Trail, Gary Giacomini Preserve
- Hunt Camp Trail, Gary Giacomini Preserve
- Octopus Trail, Camino Alto Preserve
- Piedmont Trail, Baltimore Canyon Preserve
- Porcupine Trail, White Hill Preserve
- Warner Canyon Trail, Blithedale Summit Preserve
- Willis Evans Trail, Gary Giacomini Preserve

The data was collected by Eco-Counter devices, a commonly used infrared technology that can discern pedestrians, cyclists, and equestrians but does not record images and does not infringe on visitor privacy. The infrared devices operate much like a TV remote control. Sensors at different heights detect a passer-by, whether it's a hiker, a mountain biker, or an equestrian, and compile the data. The statistics are transferred remotely and integrated into software that helps analyze visitation trends. Visitation information will be shared with the public and the Marin County Board of Supervisors periodically.

Requests for accommodations may be made by contacting (415) 473-4381, TTY (415) 473-2495, CRS dial 711, or disabilityaccess@marincounty.org at least 5 days in advance. Copies of documents are available in alternative formats upon request.
