**GENERAL COMMENTS / INSTRUCTIONS**

WHERE NEEDED ADDED FRESH BAIT  
 Serviced all trap stations around the exterior perimeter of both buildings. There were no captures at the time of service but I added fresh bait to each trap. I recommend trimming back the landscape, its starting to grow towards the building.

Serviced all traps around the exterior perimeter of the building. There was 1 capture, a mouse, at the time of service. I removed the capture and added fresh bait to each trap. There arent any ants in any of the stations since the couple of times i didnt re-bait them due to the amount of ants in them, so it worked.

court floor from C-102 to Courtroom A  
 Inspected room c-102 all the way down to the courtroom. The judge from courtroom a (I believe its courtroom a) said he sees a few insects here and there but that its not big deal and that he didnt need monitoring. The woman ( I didnt catch her name) in 102 said that she's been seeing all types of insects as of lately, potato bugs, pill bugs, centipedes etc.... lets inspect the monitors next friday and based off what we find we can treat the balconys in this general area with essentria ice. Have next tech give me a call before arriving.

**GENERAL COMMENTS / INSTRUCTIONS**

Service Traps Within Stations in Landscape  
 Serviced all trap stations around the exterior perimeter of the civic center. There were 4 captures at the time of service, all field mice. I removed all captures and added fresh bait to each trap as well as detex blox where necessary.

My recommendations remain the same, but I would also like to throw out this recommendation, although I know it would be tough to execute, removed all landscape around the civic center. That means, trees, bushes and so on. Leave just grass, keep it well taken care of and short and there would be much less pest issues.

**GENERAL COMMENTS / INSTRUCTIONS**

Service Traps Within Stations in Landscape  
 Serviced all trap stations around the exterior perimeter of the civic center. There 5 caprures at the time of service. 2 rats and 3 mice. I believe that since the bushes were removed from the west side middle arch area, the rodents that were nesting area habe begun to start moving around and venturing into the stations. This area was where 2 rats and 1 mouse were caught.

**GENERAL COMMENTS / INSTRUCTIONS**

Serviced all trap stations around the exterior perimeter of the lots. There was just 1 capture at the time of service, 1 mouse in a lower lot station. I removed the capture and added fresh bait to each trap as well as detex blox where necessary. A majority of the stations had little or no activity. While servicing the stations I saw a man cleaning up garbage around the lower lot, I'm not sure whether it was just a good citizen or someone who worked for the county. He missed the area behind the portable bathrooms but atleast someone trying to clean that lot. Same recommendations apply.

**GENERAL COMMENTS / INSTRUCTIONS**

Serviced all trap stations around the exterior perimeter of the lots. There was only 1 capture at the time of service. Conditions seem to improving in the lower lot, although it looks that someone, for some reason, decided to throw cut orange pieces around a few of the stations in the lower lot.

**GENERAL COMMENTS / INSTRUCTIONS**

Serviced all trap stations around the compound. There was 1 capture only at the time of service, a rat in the station by the barbeque. We very commonly catch rats in the stations, not because I see any conditions which may attract the rat but I believe they just enter from under the gate by the station and end up inside of it.

**GENERAL COMMENTS / INSTRUCTIONS**

Caught 2 mice  
 1- behind building #3250  
 1- behind building #3240  
 All other traps were set, and had no bait. Snails and slugs have been consuming the peanutbutter.  
 I reset, replaced all traps and added 1 lb. of Sluggo to all the stations

**GENERAL COMMENTS / INSTRUCTIONS**

Caught a mouse at the 3rd bay station as well as several field roaches. I found field roaches in all other monitors as including the station by the water fountain/lockers. It was a small amount in each station but they are still present.

I recommend treating the exterior of thw building again. I wasnt able to treat the back side last time due to construction so please coordinate accordingly.

WHERE NEEDED ADDED FRESH BAIT  
 Service of interior and exterior devices, exterior we captured 7 rats along the front of the structure and by the garbage area as noted below. Inside there were no captures. I did not see any other droppings or signs of rodent activity this morning on the inside. Heavy activity on the exterior including 2 mice I saw running in the front planter area. Fly activity is also extremely less, especially in the kitchen areas. Changed fly boards. Treated drains in bar, still some light small fly activity here. Overall, conditions are much improved. They did also tear out the boxed area on the right side of the bar where nesting activity was most likely present before. I would see it best to keep this area fairly open and not enclosed.

WHERE NEEDED ADDED FRESH BAIT  
 Serviced all interior and exterior devices. 12 rodents captured around the exterior of the structure, 3 of which were captured in the electrical room by the door. There is a possibility this may not be staying shut at night with janitorial services. Please double check. I also observed 1 mouse running on the exterior patio area. On the interior there were no rodent captures and no signs of new rodent activity. Fly activity is low, changed fly boards. The light in the far back area needs an extension cord to be plugged in. There is a light amount of grease beginning to build up in the grout line behind the cold prep area of the cook line, under the order up counter. Just FYI. 3 field roaches were captured by the back kitchen exterior door. Overall the kitchen looks great. Bar area also looks satisfactory with only moderate small fly activity. At maintenance building we captured 3 mice and a small snake on the exterior, and 1 mouse in the office.

WHERE NEEDED ADDED FRESH BAIT  
 Serviced interior and exterior traps and monitors, one rat and two mice or captured on the exterior. There were no new droppings observed or captures during my inspection of the Interior. Areas are being kept clean, and as another positive result of fly activity is a lot less. Treated some drains in the bar area with biofoam for some of the small fly activity. One field roach was captured in the cook line area behind the fridge. I removed the fly light from the wall that is above the counter in the cook line and will rehang it next week in an area not over a food prep space. There is also one more spot I would seal up in the closet of the bar on the right hand side when you open the doors. If this cannot be done by the staff this week, then I can do it next week when I hang the Fly Light. I gave Erick a can of foam and he said he would get it done.

The maintenance shed area is experiencing some mice activity in the office now. We captured three mice and 1 vole out in this area

WHERE NEEDED ADDED FRESH BAIT  
 1 rat and 1 mouse captured exterior of clubhouse. No signs of rodent activity on the interior. Conditions look good. Fly lamp in back left room still needs extension cord. Rehung fly lamp in cook line area so that it's not over a food area. Fly activity low. Moderate small fly activity in bar. Spoke with Erick and Chris. Maintenance shed had 1 mouse capture in the office and 1 rat capture in the back exterior

WHERE NEEDED ADDED FRESH BAIT  
 4 mice captured outside and 1 sighted in the front mulch area. No captures or signs of activity on the interior. Spoke with Erick and Chris, the bar area is coming along nicely and the fly activity is already extremely better since removing the old beer keg fridge. Kitchen fly activity was also low. No other activity to report. 2 mice captured exterior at the maintenance shed

SERVICIE ALL BAIT STATIONS WITH TRAPS. RESET, REPLACE AND OR REBAIT.

Serviced all accessible trap stations, there were some I wasnt able to get around the home do people having a picnic in that area, I know that the rangers dont like people seeing me check rat stations infront of them. There were no captures at the time of service but I added fresh bait to each trap.

31801181	NET 10	Service Rodent Boxes with Traps Exterior	1.00

**GENERAL COMMENTS / INSTRUCTIONS**

SERVICED ALL TRAPS. RESET, REPLACE AND OR REBAIT ALL TRAPS.  
 Serviced all trap stations around the exterior perimeter of the shop, playground and lagoon. There were 3 captures at the time of service. 1 outside the shop, 1 in the shop and 1 in the bushes at the top of thw lagoon. I removed all captures and added fresh bait to each trap as well as detex blox where necesarry. I've been seeing black widows in the stations around the playground suring the last few services. The mulch doesnt help and neither do the bushes, please keep these bushes/trees cut back and in good condition.
