GENERAL COMMENTS / INSTRUCTIONS

Service Traps Within Stations in Landscape
 Serviced all trap stations around the exterior perimeter of the civic center
 There were 3 mice captured at the time of service. I removed all captures and added fresh bait to each trap as well as detex blox where necessary. I recommend that the civic center review the entire landscape before winter and the rains come in order to better combat against rodents trying to enter the building once that time comes.

GENERAL COMMENTS / INSTRUCTIONS

Serviced all parking lot stations. There were no captures at the time of service as well as little activity. I added fresh bait to each trap as well as detex blox where necessary. My recommendations are to keep the landscape well taken care of as well as maybe even getting rid of the vines in-between the lower and upper level parking lots where most of the rodents are burrowing under.

GENERAL COMMENTS / INSTRUCTIONS

Serviced all trap stations around the parking lots. There was just 1 capture at the time of service, which was in a station placed along the ivy in the lower lot. I'm still seeing a lot of trash thrown around the perimeter of the lower lot, orange peels in specific which rodents love. Same recommendations apply.

GENERAL COMMENTS / INSTRUCTIONS

Spoke with Rosalind, they had just moved a bunch of cardboard boxes this last week and that's probably where the roach came from. Placed out some monitors and told her to let us know if she sees anything else, I did not see any signs of or observe any activity. No follow up needed unless they see more.

GENERAL COMMENTS / INSTRUCTIONS

WHERE NEEDED ADDED FRESH BAIT
 2 mice captured exterior, activity has decreased outside. 1 mouse captured in bar closet. They just did the floor in this area, not sure if that had anything to do with it, but we will keep an eye on this area. Hole in the wall inside the closet hasn't been sealed up yet. I did not see any other rodent activity. Fly activity very low in all areas now. 1 mouse captured exterior at maintenance building

GENERAL COMMENTS / INSTRUCTIONS

WHERE NEEDED ADDED FRESH BAIT
 Three mice captured exterior, no captures interior. No new signs of rodent activity or droppings. Fly activity very low compared to before, the bar area is looking great. Added 1 multi catch device in the kitchen under the linen shelving at the request of Chris. Added this into pestpac devices. No other activity inside. The Fly Light in the cook line, both bulbs were out. I need to bring a couple bulbs next service to see if they will work or if the actual light ballast is bad. 2 mice captured in maintenance shed

GENERAL COMMENTS / INSTRUCTIONS

WHERE NEEDED ADDED FRESH BAIT
 1 mouse captured exterior, left side. 1 mouse captured interior behind oven stack. Fly activity low. No rodent activity in bar area. Tried moving the fly light that's not in use from the back area to the cook line spot where the light is not working. But the cord is damaged on the white one. Ballast is broken on the other. Also it looks like a skunk or something was in the garbage area. Lots of debris chewed and on the ground and I could smell skunk. No captures at maintenance building

GENERAL COMMENTS / INSTRUCTIONS

SERVICIE ALL BAIT STATIONS WITH TRAPS. RESET, REPLACE AND OR REBAIT.

Serviced all trap stations around the exterior and interior. There were no captures at the time of service but I added fresh bait to each trap. I recommend removing all of the excess tree debris behind the barn, its a great environment for rodents and fleas to thrive in.

SERVICIE ALL BAIT STATIONS WITH TRAPS. RESET, REPLACE AND OR REBAIT.

Serviced all trap stations there were no captures. But what there was, was stations thrown all over the place, again. Even the stations in employee only access areas are also being messed with. It needs to stop, leave the stations alone.

SERVICIE ALL BAIT STATIONS WITH TRAPS. RESET, REPLACE AND OR REBAIT.

Serviced all trap stations. They are still being tampered with, I'm not sure it's strong enough to do such damage to them and pull them out of the ground but small enough to make their way inside and take all the bait. No captures

GENERAL COMMENTS / INSTRUCTIONS

SERVICED ALL TRAPS. RESET, REPLACE AND OR REBAIT ALL TRAPS.
Serviced all trap stations. There were 2 captures at the time of service, 1 around the playground and 1 around the maintenance shop, both mice. Again, the stations had been messed with at this location just like mcnears, quite the coincidence. The stations by the maintenance shop had been kicked around, the stations by the lagoon and playground were fine. I removed all captures and added fresh bait to each trap.
