Order #	Service Description	Quantity
A210975	Service Trap/s Exterior Bait Boxes	1.00

**Service Comments**

**Tech Comment:** Serviced all trap stations around the exterior perimeter of both buildings. There were no captures at the time of service. As I was walking around I noticed that on the left side of building 20, when facing the front, there are a bunch of oranges and lemons on the ground that had fallen from a tree. I recommend that these be picked up regularly in order to be a less attractive sight for rodents.

## Service Comments

**Tech Comment:** Correct time 12:17pm-12:42pm

Serviced all trap stations around the exterior perimeter of the building. There were no captures this time around, I rebaited where found necessary. As I surveyed for factors that may possibly attract rodent activity I found that foliage around the building needs to be addressed, especially close to the maintenance closet, trash cans need to have lids placed over them and the doors by the box office need to remain closed when not in use to deter potential rodent issues inside the auditorium in the future.

## Service Comments

**Tech Comment:** Serviced all trap stations around the exterior perimeter of the building. There were no captures at the time of service but I went ahead and added fresh bait to each trap. The foliage around the building is getting higher and there's some trash laying up against the building near the garbage can area, by one of the stations, that needs to be taken care of.

Order #	Service Description	Quantity
A211308	Service Trap/s Exterior Bait Boxes	1.00

## Service Comments

**Tech Comment:** Serviced all trap stations around the exterior perimeter of the building. There were 2 captures one small rat and 1 large rat, both along the back side of the building. I recommend that the thick layers of leaves be cleaned up by someone soon in order to reduce conditions attractive to rodents around the building.

	Service Insect Monitoring Stations	1.00

## Service Comments

**Tech Comment:** Performed regular IPM service as well as checked in with chefs and maintenance staff on site. They said health department suggested placing out the traps unset. I agree with this, and triggered some of the traps, but not all. I also removed any glue boards in place because I was told the health dept didn't like this either. Let it be noted we are complying with all requests and maintenance crew is also handling some of this, every time I come in for service there are more traps, or less traps, or they are in different locations. Chef said he had seen some recent droppings. But these are always cleaned up before I arrive so I haven't seen any recently.

	Service Insect Monitoring Stations	1.00

**Service Comments**

**Tech Comment:** Met with Erica and Mike, they reported seeing a rodent day before yesterday in the office. Inspected all areas of kitchen, under cabinetry, lifted up panels, made sure traps were bated and positioned properly. Some were moved around since I was here last. I found no new droppings, no chewing or gnawing activity. Staff has not seen any droppings either. No captures in traps. Also serviced insect monitors and fly lamp. Replaced fly board. No captures in ims.

Order #	Service Description	Quantity
213898	Service Interior Rodent Traps	1.00

**Service Comments**

**Tech Comment:** Met with some in maintainence crew and with chef. They had reopened for a few days but then found some droppings in a grease tray so they closed themselves back down. Doesn't sound like they were going to reopen today but the crew came in and we're moving traps from the front stove areas for reopening. I moved traps out of these areas for them and set them in back areas. They have already set a bunch of traps themselves. I set some additional as well so all areas are covered. I did not see any fresh or new droppings this morning. I will be back Friday morning. Sanitary conditions are good.

Order #	Service Description	Quantity
213901	Service Interior Rodent Traps	1.00

**Service Comments**

**Tech Comment:** Spoke with Erica and Michael, and woman from health dept. They are still seeing some droppings in the front flat top oven area, with no captures in traps. We are experiencing some trap aversion and possibly food source competition. Food is said to be locked up at night, rodent is getting into some kinds of dried fruit. Baited traps with yellow raisins. Placed traps correctly. Many get moved around in between my services. I will also keep a close eye on areas under the cabinets in the void. Communicated all of this to chefs. Kitchen areas are very clean right now.

## Service Comments

**Tech Comment:** There was nothing captured nothing noted in the sighting log and no evidence of droppings or damage. Spoke with the chef that comes in a 530 am and he said he hasn't seen anything in 3 or 4 days. Added two boxes to the kitchen on behind the ice machine one under the back prep table. Added detex to boxes. I will get with Jordan to add boxes to the outdoor terrace and make sure that they are checked weekly with the cafe ipm service.

**Service Comments**

**Tech Comment:** During my inspection this morning I found some new droppings in a few areas. I found a couple of droppings right in the middle of the floor in the hallway that leads to the beverage storage at the front of the cafeteria. I also found one dropping in the back right of the kitchen underneath the shelving by the back window. The spot where I found the most droppings was on underneath the curved shelving right behind the customer area. I picked up these droppings took pictures and am talking with William so we can discuss a plan since they are avoiding our traps

## Service Comments

**Tech Comment:** Noted one dropping in hallway where sodas are stored. One dropping behind large Coca Cola fridge. This needs to be moved out and inspected. No other droppings or found. Took a picture of area under pastries that should be screened. Added one box to exterior under far juniper bush on other side of courtyard.

Order #	Service Description	Quantity
A211093	Service Trap/s Exterior Bait Boxes	1.00
	Intergrated Pest Management Services	1.00

**Service Comments**

**Tech Comment:** Serviced all the exterior perimeter trap stations around the civic center complex. There was 1 capture in a station thats located in the loading dock area, where all the yellow service trucks park. As I walked around the complex I noticed a decent amount of trash on the north freeway/hill-side the building. I recommend it be cleaned up in order to not entice any more rodent activity in that area. I would also recommend that the foilage on both left and right sides of the middle arch, when staring at it from the Santa venetia side, be shortened in order to be less conducive to being rodent roaming or harborage sites.

Order #	Service Description	Quantity
A211094	Service Trap/s Exterior Bait Boxes	1.00
	Intergrated Pest Management Services	1.00

## Service Comments

**Tech Comment:** Serviced all trap stations around the exterior perimeter of the civic center. I rebaited where needed although there weren't any captures. The tall grass and ivy are creating preferable conditions for rodents. I recommend that it all be trimmed as soon as possible and regularly. Additionally, I would like to reiterate how much trashed the trash can area is by the south arch.

Order #	Service Description	Quantity
A211095	Service Trap/s Exterior Bait Boxes	1.00
	Intergrated Pest Management Services	1.00

**Service Comments**

**Tech Comment:** Serviced all trap stations around the exterior perimeter of the civic center. There were no captures at the time of service. The grass, weeds and ivy are only getting higher and becoming more attractive areas for rodents to roam, I recommend it be cut asap. The trash can by the south arch on the Santa venetia side is still an issue. Trash All over the ground, I highly recommend putting one of those push-lids over it so people aren't shooting for the open can and missing. I also noticed a small pile of wood by the waterfall on the hill, that should removed from the area immediately.

**Time Out:** 3/6/2018 01:18 PM

Order #	Service Description	Quantity
A211158	Service Parking Lot Traps	1.00

**Service Comments**

**Tech Comment:** Serviced trap stations in parking lots. Re-baited where found necessary. There were 3 captures all in the lower and upper parking lot, where a majority of the captures normally are. Excessive amounts of foliage around a majority of the stations in the upper/ lower parking. I also noted an excessive amount of foliage by the carpool parking area. I recommend it all be shortened in order to be less enticing to rodents as harbor-age or roaming sites.

Order #	Service Description	Quantity
A211161	Service Parking Lot Traps	1.00

**Service Comments**

**Tech Comment:** Serviced all parking lot trap stations. There were 3 captures in total at the time of service. 2 of the captures were in the upper parking lot area and the other was in the lower parking lot area. There were no captures in the other parking lots.  
 As I walked around and inspected the landscape I noticed how much taller the grass and Ivy has gotten. This can definitely cause more rodent activity within these areas.

Order #	Service Description	Quantity
A210968	Service Trap/s Exterior Bait Boxes	1.00

**Service Comments**

**Tech Comment:** Serviced all trap stations around the exterior perimeter of the buildings and in the interior. There was 1 capture by the south doors. My observations of factors that may cause rodent issues are as goes: ivy by the theater entrance is beginning to get too long, there's trash littered by the garbage can area that needs to be picked up and food compost is being placed in the recycling cans which have easy access at the top of them. I recommend this all be taken care of.

Order #	Service Description	Quantity
A210959	Service Trap/s Exterior Bait Boxes	1.00

**Service Comments**

**Tech Comment:** Serviced only the exterior stations, could not access pge yard again. I asked kitchen staff to see if anyone there had a key, they said no and directed me towards the control room. The director Erick, tried a key but it did not work. He called maintenance and they will try to resolve the issue this week.

Order #	Service Description	Quantity
A210965	Service Trap/s Exterior Bait Boxes	1.00

**Service Comments**

**Tech Comment:** Serviced all trap stations around the exterior perimeter of the shop, yard in by the creek. There were 4 captures in total, 1 large rat by the container/creek, 1 mouse behind the building and 2 mice in the yard. I would attribute the resurgence of activity to the tall grass around the yard and creek area. I recommend that it all be trimmed down soon.

Order #	Service Description	Quantity
A210982	Service Trap/s Exterior Bait Boxes	1.00

**Service Comments**

**Tech Comment:** Met with John and serviced exterior stations. He said 830 time frame is still good, he just had hands full this morning. 1 mouse caught exterior corner by roof, same as last time. No other captures. Some mouse activity in other stations. Bring a couple new t Rex traps next visit to replace. Exterior perimeter is in good shape, plants and shrub are away from walls. Stairwells do have leaf buildup that should be shoveled or swept out.

Order #	Service Description	Quantity
A211229	Service Interior Rodent Traps	1.00
	Service Fly Machine/s	1.00
	Service Insect Monitoring Stations	1.00

## Service Comments

**Tech Comment:** Serviced interior devices, no captures. Fly activity in bar area is directly related to the sanitary conditions. Floor mats are filthy, there are constant wet and damp areas, and wet rags on the floor that have been left sitting there. Bio foamed left side area and drain where I could see clear small fly breeding activity. Fly activity in kitchen was low, changed fly boards where needed. No roach activity observed.

A211233	Service Trap/s Exterior Bait Boxes	1.00
	Service Insect Monitoring Stations	1.00

**Service Comments**

**Tech Comment:** Fairly heavy small fly activity throughout, mainly in bar area. This is directly related to the sanitary conditions. I have brought up several times that the floor mats need cleaning, and conditions are damp and sticky under the bar area. Also behind the soda condenser unit on the floor there is an extreme amount of sticky syrup, causing the fruit/phorid flies to thrive. Also, mouse activity was noted by bartender. I set some boards under this drawer and a trap under the sinks on the opposite side. 1 mouse captured exterior. Replaced fly boards in kitchen. Most had activity. Garbage area outside also needs cleaning and a good power washing.

Order #	Service Description	Quantity
A211230	Service Interior Rodent Traps	1.00
	Service Fly Machine/s	1.00
	Service Insect Monitoring Stations	1.00

**Service Comments**

**Tech Comment:** Serviced interior and exterior devices. Mouse activity exterior but no captures. 1 mouse caught interior in bar area. Floor mats have been somewhat cleaned, but small fly activity is still heavy due to spots under the bar that need cleaned. Changed fly boards in kitchen and bar. Conditions throughout kitchen could be improved as well, grease build up under cabinets and appliances, cardboard boxes used for storage, these conditions can lead to roach activity if not taken care of. I did not observe any roach activity today. Sanitation is needed.

Order #	Service Description	Quantity
A211235	Service Trap/s Exterior Bait Boxes	1.00
	Service Insect Monitoring Stations	1.00

**Service Comments**

**Tech Comment:** Serviced interior and exterior controls. 1 vole, 1 mouse, and 1 juvenile rat captured exterior. 1 mouse captured interior behind the bar area. Small fly activity continues to be heaviest in bar area directly related to sanitary conditions. As the weather gets warmer this will only get worse. In addition we may need to adjust the service to include treatment for fruit and phorid flies in the drains and areas with buildup. No captures throughout kitchen in monitors. Garbage area outside also needs cleaned, organized and power washed.

Order #	Service Description	Quantity
211293	Service Insect Monitoring Stations in Planters HOJ	1.00
	Inspection	1.00

**Service Comments**

**Tech Comment:** Serviced all insect monitoring stations within the planters. The planters at the north end of the complex were mostly insect free. The planters at the south end of the complex all had alot of pill bugs inside of them, I would recommend an after hours treatment of the planters to help lessen the population. Parks and rec, I believe, were there trimming plants which was great and very helpful as to reduce conditions for possible pests.

Order #	Service Description	Quantity
A211068	Service Trap/s Exterior Bait Boxes	1.00

## Service Comments

**Tech Comment:** Serviced all trap stations around the exterior perimeter of the building. There were no captures at the time of service but there were several traps that had been set off. I reset these traps and added fresh bait to all areas where necessary.

I believe the ivy up front here will need some trimming in the near future to avoid being an inhabitable area for rodents.

Order #	Service Description	Quantity
A211964	Service Trap/s Exterior Bait Boxes	1.00

## Service Comments

**Tech Comment:** Inspected and serviced perimeter snap trap stations throughout residential property, and maintenance office. Moderate activity noted. Captured 1 juvenile roof rat by the residential address, and captured a field mouse by the maintenance office. I reset and replenished traps with peanut butter as needed.
