Service Traps Within Stations in Landscape
 Serviced all trap stations. There was 1 capture in one of the stations on the waterfall hill, a rat. I removed the capture and added fresh bait to each trap. I recommend cleaning up the mess made by fair-goers yesterday. There's alot of garbage that had been thrown around the building.

GENERAL COMMENTS / INSTRUCTIONS

Service Traps Within Stations in Landscape
 Serviced all trap stations around the exterior perimeter of the complex. There was 1 capture at the time of service. I removed the capture and added fresh bait to each trap as well as detex blox where necessary. I recommend that the trash, fallen branches and homeless paraphernalia by the middle arch be cleaned up and removed. I also recommend that the tree by the cafeteria that has branches hanging over the side, be trimmed down.

AREA COMMENTS

Parking Lots: Serviced all trap stations around the exterior perimeter of the civic center parking lots. There were 3 captures at the time of service, 1 rat and 2 mice. I removed all captures and added fresh bait to each trap as well as detex blox where necessary. I recommend the trash from the fair be picked up. Please remind me to bring new mice traps on the next service.

GENERAL COMMENTS / INSTRUCTIONS

Serviced all trap stations around the exterior perimeter of the parking lots. There were 5 captures at the time of service; 2 rats and 3 mice. 1 rat and 2 mice were captured in the upper parking lot while 1 rat and 1 mice were captured in the lower lot. I removed all captures and added fresh bait to each trap as well as detex blox where necessary. I recommend keeping the grass low, we seem to capture more rodents because there are less areas for them to hide and nest.

GENERAL COMMENTS / INSTRUCTIONS

SERVICE ALL TRAPS WITHIN STATIONS
 There were 2 captures at the time of service, 1 in the station by the back door and another in the station just around the corner. Both captures were rats. I removed both captures and added fresh bait to each trap. I recommend not leaving any trash around the building to avoid future issues

GENERAL COMMENTS / INSTRUCTIONS

WHERE NEEDED ADDED FRESH BAIT
 Serviced interior traps, fly machines and monitors. 1 mouse captured in kitchen. The other kitchen trap had been opened and placed outside, in assuming because of captures. I replenished it and placed it right inside the door behind the co2 canister area hoping to catch any on their way in. Placed new trap in bar as well. Replaced fly boards for moderate atrocity. No roach activity observed

GENERAL COMMENTS / INSTRUCTIONS

WHERE NEEDED ADDED FRESH BAIT
 Replaced all fly light glue boards

Caught 19 mice total

- 1 at bar
- 1 at stove area in kitchen
- 5 under shelving at kitchen receiving door.
- 4 mice caught in exterior front building stations.
- 1 mouse caught under BBQ in back patio dining area

7 mice caught inside, and outside the maintenance building

FYI - There are 3 interior stations , and 4 exterior stations at the maintenance building.

I spoke with managers of the following:

Recommend an R&M inspection of openings inside and sealing up openings where mice are entering

Recommend clearing landscape from front of building back 3-4 feet, and trimming down all bushes and small trees (the mice are using this area to breed and to enter into the building)

GENERAL COMMENTS / INSTRUCTIONS

SERVICIE ALL BAIT STATIONS WITH TRAPS. RESET, REPLACE AND OR REBAIT.

Serviced all accessible trap stations around the exterior perimeter. There was 1 capture at the time of service, a mouse in a station behind the home. I removed the capture and added fresh bait to each trap.

Ant situation becoming worse around the home, I am also seeing activity around the barn. I highly recommend we do a treatment around the home and barn just as we do for the county.
