GENERAL COMMENTS / INSTRUCTIONS

WHERE NEEDED ADDED FRESH BAIT
 Serviced all trap stations around the exterior perimeter of both buildings. There was 1 mouse captured at the time of service. I removed the capture and added fresh bait to each trap. I recommend picking up after the lime trees on the side of building 20 and clearing some of the debris from the bushes around building 10, most notably the street side.

GENERAL COMMENTS / INSTRUCTIONS

WHERE NEEDED ADDED FRESH BAIT
 Serviced all trap stations around the exterior perimeter of both buildings. There were no captures at the time of service but I added fresh bait to each trap. There are no current conditions that may attract rodents, but the limes are growing back again, so I would suggest picking them up as soon as they fall off the tree.

GENERAL COMMENTS / INSTRUCTIONS

Serviced all trap stations around the exterior perimeter of the building. There was 1 mouse captured by the service doors, in the same station as last. I recommend raking all the leaf and plant debris from this area as well as trimming back the bushes from the building. There is still signs of a homeless person camping out on the east side.

GENERAL COMMENTS / INSTRUCTIONS

Serviced all trap stations around the exterior perimeter of the building. There were no captures at the time of service but I added fresh bait to each trap. My recommendations would be to keep up with landscaping around the building as well as not leaving the plastic bowl under the water spigot. The water sitting in a bowl there is can feed the rodents water and keep them around.

* I also cleaned out the station the right of the front door. It was flooded with water.

GENERAL COMMENTS / INSTRUCTIONS

Service Traps Within Stations in Landscape
 Serviced all trap stations around the exterior perimeter of the civic center. There was 1 mouse captured on the freeway side of the middle arch. I removed the capture and added fresh bait to each trap. I also added fresh detex blox, new mice traps and rat traps where necessary. There seems to be little activity occurring right now from what I can see from the stations. Still, I recommend to keep the grass low on the hills and to keep trimming away at unnecessary bushes, shrubs etc...

Service Traps Within Stations in Landscape
 Serviced all trap stations around the exterior perimeter of the civic center. There were only 2 captures at the time of service, both in the same station. I removed the captures and added fresh bait to each trap. In addition to my last recommendations I recommend that all exposed pipes have galvanized screen mesh placed over them to keep rodents from entering the building.

Service Traps Within Stations in Landscape
 Serviced all trap stations around the exterior perimeter of the civic center. There were 2 mice captured at the time of service. I removed the captures and added fresh bait to each trap as well detex blox where necessary. My recommendations remain the same as last time with an addition of recommending that all the trash around the southern arch on the marinwood side be picked up. Unfortunately that hillside is completely trashed, all this scattered trash not only invites rodents but a multitude of insects as well.

GENERAL COMMENTS / INSTRUCTIONS

Service Traps Within Stations in Landscape
 Serviced all trap stations around the exterior perimeter of the civic center. There were no captures at the time of service but I added fresh bait to each trap. At this point, there are alot of stations that NEED to be replaced. Its been a VERY long time since they were originally placed out, that means they are weathered, they have wear and tear which is normal for the amount of time its been exposed to so many elements. But now, a majority of the stagions have holes, holes that leave rat and mice traps exposed to the public. Due to this, I am not able to reset certain traps, I am baiting them however as a sample for the rodents to get hooked on and eventually for in a trap thats actually set. Again, I would highly consider replacing these trap stations.

AREA COMMENTS

Parking Lots: Serviced all trap stations around the parking lots. There were 2 mice captured at the time of service. I removed each capture and added fresh bait to each trap as well as detex blox where necessary. I recommend cutting down the ivy and keeping the grass low. The trash conditions seemed to have improved since there isnt as many events going on now due to the weather.

31801261	NET 10	Service Parking Lot Traps	1.00

GENERAL COMMENTS / INSTRUCTIONS

Serviced all parking lot stations. There was 1 capture at the time of service, a vole in the lower parking lot hillside. I removed the capture and added fresh bait to each trap. My only recommendation at the time of service is to keep the parking lot foliage low. No other pests sighted other than the occasional firebrats and pill bugs.

GENERAL COMMENTS / INSTRUCTIONS

Serviced all trap stations around the exterior perimeter of the parking lots. There were 2 mice captured in the lower parking lot hillside. I removed both captures and added fresh bait to each trap. There was a lot of ant activity in the carpool stations. I recommend treating these stations for ants because these are big colonies living in there.

GENERAL COMMENTS / INSTRUCTIONS

Serviced all trap stations around the lots. There were no captures at the time of service but I added fresh bait to each trap. The grass, weeds, foliage etc... continues to grow and is not being trimmed down, its creating the perfect habitat for rodents to thrive in. Im continuing to see sliced oranges thrown into the weeds over on the right side of the portable bathrooms, I also observed two pumpkins down there today. Something must be done.

GENERAL COMMENTS / INSTRUCTIONS

Serviced all trap stations around the exterior perimeter of the office. There were no captures at the time of service but I added fresh bait to a majority of the traps. I did not add bait to the traps in one station because it was completely flooded due to the rain. On the next service I will bring a drill so that I can remove it from its anchor and place it elsewhere.

GENERAL COMMENTS / INSTRUCTIONS

Serviced interior IMS, 1 roach was captured in the kitchen that I did treatment in before, but I did not see any other signs of there being more, or a situation where I need to treat more. Employees need to be strict about putting food away, cleaning the counters, clearing out drawers, and getting rid of cardboard.

GENERAL COMMENTS / INSTRUCTIONS

WHERE NEEDED ADDED FRESH BAIT
 Serviced all trap stations around the exterior perimeter of the building. There were no captures at the time of service but I added fresh bait to each trap. I recommend doing a better job with all the fallen leaves and debris on the rear side of the building. I also recommend cutting back the branch from the tree upfront thats touching the roof. I would recommend removing all the trees that are up close to the building but I understand that its a big request.

GENERAL COMMENTS / INSTRUCTIONS

SERVICED ALL TRAPS WITHIN STATIONS.
Serviced all trap stations. There was just 1 mouse captured at the time of service. I removed the capture and added fresh bait to each trap other than in 1 station. This station is in the impound lot, it had a heavy ant infestation so I removed the previously placed PB and left it empty, hopefully they will not be there on the next visit. Same recommendations as previous.

GENERAL COMMENTS / INSTRUCTIONS

WHERE NEEDED ADDED FRESH BAIT
 Serviced interior and exterior devices, 1 mouse captured exterior right side. No rodent activity interior. Some ant trailing observed in the hallway. We may need to do some crack and crevice baiting if this persists. Fly activity was low, changed fly boards as needed. Spoke to Erick and Chris. Erick also expressed they are still not receiving the reports after my service when I email them. This seems to be a problem with PestPac software. I will look into this. No captures at maintenance building

GENERAL COMMENTS / INSTRUCTIONS

WHERE NEEDED ADDED FRESH BAIT
 Serviced interior and exterior devices, 1 juvenile rat captured by the garbage area. No captures inside or signs of activity. I informed Chris about some buildup in the grout at the end of the cook line under the table that should be addressed before it gets worse. Overall all conditions were good. Fly activity is low. 1 large rat captured outside maintenance shed

GENERAL COMMENTS / INSTRUCTIONS

SERVICIE ALL BAIT STATIONS WITH TRAPS. RESET, REPLACE AND OR REBAIT.

Serviced all trap stations. There was 9 mice captured at the time of service, a majority of them being in the stations around the home. As I have noted before, there seems to be wood boring beetles eating at the wood under the home and today I noticed some openings in the snackshop "hallway". I recommend doing a full inspection in this area.

GENERAL COMMENTS / INSTRUCTIONS

SERVICED ALL TRAPS. RESET, REPLACE AND OR REBAIT ALL TRAPS.
 Serviced all accessible trap stations. There were no captures at the time of service but I added fresh bait to each trap. Im having issues with several stations being too worn out and beat up. These stations have big cuts in them and its becoming dangerous for me to reset traps inside of them, I wouldnt want anyone to accidentally get hurt by sticking their hand in there or who knows how else, especuallly around the playground. I recommend removing all current stations and replacing them with new ones, these have been placed here for years and its past due that we place new stations out.

GENERAL COMMENTS / INSTRUCTIONS

WHERE NEEDED ADDED FRESH BAIT
 Serviced all trap stations around the exterior perimeter of the buildings. There were no captures at the time of service but I added fresh bait to each trap as well as detex blox where necessary. I recommend cutting back the ivy and cleaning after visitors trash, if not placing out more garbage cans.

General Comments

Inspected interior and exterior rodent controls, heavy rodent activity noticed, cleaned and reset stations adding peanut butter bait as needed, meet with Robert and inspected all interior and exterior of building with Roger and Oscar, on inspection we were able to see what looks like at the over hang in back patio, life rat found in there, set traps with peanut butter as attractant, also heavy water seating in that void area, please remove water, that is a potential mosquito harvest, also cover any holes from the data closets as we spoke, no other activity notices. Thank you
